| Southwest Autism Resource and Research Center Community Works Program | Autism <i>CommunityWorks</i> ® is a program that helps young people with autism between 13 and 18 years of age make the transition to adulthood, higher education, and/or optimum employment. This junior volunteer opportunity enables teen peer mentors to engage with teens with ASD. By doing volunteer work throughout the community, teens with ASD and their peer mentors develop job skills, learn to socialize, and build lasting friendships. | Beatriz Conti Orr, (480) 603-3288 or borr@autismcenter.org |
